CD – 0015 KAAX'ACHGÓOK (Version One)

(from "My Old People's Stories: A Legacy for Yukon First Nations, Part II: Tagish Narrators"

by Catharine McClellan, edited with additions by Julie Cruikshank) This story was told by Angela Sidney to Catharine McLellan.

I'd like to sing a song that my son was welcomed home with from the army. This song was supposed to be made by some of our people.

He is Tuk.weidí.

His name is Kaax'achgóok.

A boat drifted away with this man one time in November.

And he stayed out about nine months.

And while he was on the island, he dreamed about home.

He was welcomed home [was what he dreamed].

In those days they steered by the sun.

They did not have a compass in those days. He studied out the sun and tried to come home.

He counted the months. He knew where the sun used to be in June at home.

So a little before June he got ready to start out.

This story is from the fall, when he started out.

He told doo kéilk' (*Tlingit, his sororal nephews*) to make strong of these seal skills - the seal with the spots [harbour seals]. He told them to make string like babiche [semi-tanned line].

They did this. They dried it out.

They did pounds and pounds of it. It stacked up about three feet in the bow of the boat. That was for the anchor for the boat.

They were just like servants.

When it was good and ready, he told them to cook all they can.

They don't know it was for their lunch. They put it in a seal stomach.

They put cooked stuff in it, meat, for their lunch going back.

And they took lots of water in that thing [seal stomach] too

They got this from that island where there were big leaves, just like rhubarb. It's just full of water. It's supposed to be rain water. They just grow near the salt water. They gathered in the water, and they started off.

He studied the sun.

It started to come out the same place.

He would go out early in the morning to see where the sun came up.

He put in a stick to mark it. In the evening he did the same thing. Then it kept moving back.

And finally it came out the same place for two days.

That's the time he started back. That must have been June the summer solstice.

They must have wintered there too.

He watched where the sun came out.

He could go to the sun place every day. And he put the stick down there.

Finally it came back to the same place. Then the sun started to go back.

And he started back.

That month is always calm too.

It's down the coast near Sitka, I guess.

They say the north wind is what took him out.

The place has a big mountain on one side, and it goes right out to the sea.

The mountain is built something like this great Grey Mountain up here [above Carcross].

In June, the sun came up out of the centre of the mountain.

That's how come he started back then.

I forgot how many days he travelled - about a month.

Finally, he saw this mountain in the evening when the sun was going down.

He saw something way off like a seagull floating there. He did not say anything about it.

Next morning it was still there yet. But still he did not say anything.

They anchored the boat when the sun goes down.

The sun goes down right by the stern of the boat.

He followed the sun. He steered by it.

All day he tried to keep in the direction of the sun.

In the morning he would take the reading. And in the evening.

For two days he would watch this [thing like a seagull].

Finally, it got bigger the next night. That seagull looked bigger.

He never said anything about it until the next morning. They said, "What's that? Is it a seagull or what?" They thought it must be a seagull?

When they started to be able to see it at night, they began to travel at night too.

Finally they got back.

He had two wives.

And the youngest one had been married already. The older one waited.

She used to go out to point every morning, about four. She cried, they said.

After she finished crying, she went home.

One time she got there and she saw this boat coming.

She stayed there. She knew how her husband paddled.

She went home and woke up the people and told them the boat was coming - that it looked like her man's paddling.

How could this be? They got up anyway. They looked.

They [the men in the boat] had all kinds of seals and sea otters.

The boat was packed with skins.

Everybody got rich.

When they [the man and his nephews] found out that there had been a potlatch for them, they just gave away the skins right there. They had had a hard time you know.

LESSONS FROM THE STORY: perseverance, never giving up, hope, praying, innovation, intelligence, relying on your surrounding for direction, celebration of achievements.

CD - 0100 EARLY CHILDHOOD EDUCATION CENTRE\Haa Yátx'i Hidí POLICY

1.0 GENERAL PROVISIONS

1.1 HISTORY

The Haa Yátx'i Hidí (Our Children's House) opened in the fall of 1992 as a licensed First Nations daycare. Our respected elder Lucy Wren gave our centre the name Haa Yátx'i Hidí, which means "little kid's people's house". In 2008, The Haa Yátx'i Hidí moved into the new building at its current location next to the main C/TFN Government building.

In our tradition, children were often given into the care of others for many reasons. Being given the responsibility for a child was a great honour. In contemporary times we refer to these people who are given the care of a child as concerned caregivers. They may be given all, or may share, responsibility for a child over a short or long period of time or even permanently.

Each child has physical, spiritual, mental, and emotional needs. Raising and nurturing a child is more than providing food, a roof overhead, and an education. It calls for providing unconditional love for the child and an environment for the child to realize their full potential and grow and develop into someone the shagóon (ancestors) can be proud of; one that is in balance physically, spiritually, mentally, and emotionally.

1.2 VALUES

The daily operation of the Haa Yátx'i Hidí are grounded in the values and virtues of C/TFN:

- Selflessness
- Honour
- Respect
- Courage
- Integrity

- Knowledge
- Compassion
- Honesty

1.3 MISSION

The mission of the Haa Yátx'i Hidí is to provide licensed quality care for children in a loving and supportive environment. The centre promotes and enhances all areas of the child's development on the medicine wheel: physical, intellectual, emotional, and spiritual.

C/TFN recognizes that this program is a benefit to all children. All families and children in the community will be recognized and welcomed. This program is intended to be universally accessible to all C/TFN citizens and every effort will be made so that children are not excluded due to family income, disability, or other barriers.

1.4 OBJECTIVES

C/TFN believes that children must be in an environment that fosters positive emotional, social, cognitive, and physical development and inclusion, multiculturalism, interdependence, and dignity.

C/TFN believes that families should be involved in a meaningful way in their childcare experience and deserve assurance of quality care for their child. Childcare professionals will work in partnership with families to ensure the best outcomes for the child.

C/TFN believes that staff members should work in an environment that recognizes and respects their training, skills, and commitment to the well-being of children in their care.

C/TFN believes that all Citizens/Members should have access to a caring and supportive community service.

The Haa Yátx'i Hidí will:

- provide quality care for each child
- model and encourage appropriate guidance and caring for each child and family
- provide opportunities to increase the family's knowledge of their child's health and development
- effectively work with community agencies and individuals that are essential to the well-being of each child and family

1.5 OUTCOMES

All children will feel safe, nurtured, loved and will be encouraged to develop and grow in balance in all areas of the medicine wheel: physically, spiritually, mentally, and emotionally.

All families will be involved in the development and care of their children. They will work with the staff to ensure the best outcomes for their children.

Staff members will work in a respectful and caring environment that fosters the development of the child.

1.6 INDICATORS

- Child assessments
- Student assessments and outcomes at Ghuch Tla Community School
- Parental participation
- Staff recruitment and retention

All parents/caregivers who enrol their child(ren) at the Haa Yátx'i Hidí will be required to complete the Yukon Health and Social Services Application for Child Care Subsidy.

The subsidy program provides financial assistance to eligible families who need child care for their children. The subsidy program is available to families whose children attend licensed child care centres or family day homes.

The amount of subsidy is based on an assessment of income. This assessment takes into account family size, income, and the community where the family resides.

Although this program is funded and administered by the Yukon Government, the Supervisor of the Haa Yátx'i Hidí will be responsible for collecting and submitting the Application for Child Care Subsidy.

“It is the responsibility of the parent/caregiver to complete the application fully and honestly, if the parent/caregiver does not complete the application in full and on time they will be invoiced directly”

3.1 Haa Yátx'i Hidí SUBSIDY

4.0 BEHAVIOUR EXPECTATIONS

4.1 CHILDREN

Children are expected to act in accordance with the virtues and values of C/TFN. These expectations are consistently enforced so that children know what is and is not acceptable.

No form of physical punishment, verbal or emotional abuse, or denial of physical necessities of any child can be permitted, exercised, or inflicted.

No form of physical, verbal, or emotional abuse of any staff member will be accepted. If children are exhibiting these behaviours, parents/caregivers will be notified and required to pick up their child as soon as possible from the Haa Yátx'i Hidí.

4.2 STAFF

All staff, including auxiliary staff, will be required to work as part of a team. All staff will be expected to take on extra duties on behalf of the team as needed.

4.3 FAMILIES

Families are encouraged to stay informed and involved in the Haa Yátx'i Hidí and their child(ren)'s development.

4.4 CONFIDENTIALITY

Confidentiality of children and families will be respected at all times.

4.5 LATE PICK-UP

All parents or guardians must pick up their child(ren) by 4:45 pm. This will allow parents adequate time to pick up their child after finishing work, and will also allow the child care workers time to clean and close the Haa Yátx'i Hidí.

On the first two occurrences of late pick-ups, staff members will speak with the parent or guardian, clarify the reason for lateness, and review the policy with the parent/caregiver.

If the parent/caregiver is late a third time, the Supervisor of the Haa Yátx'i Hidí will contact them to discuss the difficulties and will make all efforts to reach a mutually agreeable solution.

Should the late pick-ups continue, the parent/caregiver will be charged a \$25 penalty fee for each incident after three (3) incidents per calendar year. A repayment agreement will need to be signed.

5.0 HEALTH AND SAFETY

Haa Yátx'i Hidí will create a safe and comfortable environment that will accommodate the abilities of all children.

To protect the health and well-being of all children, parents/caregivers are encouraged not to bring sick children into Haa Yátx'i Hidí, especially when the children are contagious. If your child is too sick to participate in programming, then the parent/guardian will be asked to pick up their child. The child may return once the child's symptoms have subsided or is cleared by a nurse or doctor.

Children with allergies will be enrolled and accommodated as much is reasonably possible. An environment will be created that minimizes exposure to allergies, but the risk of accidental exposure to allergens cannot be fully eliminated.

Any food restrictions / allergies for each child will be put on the fridge door for a visual reminder to staff.

Parents/caregivers must discuss their child(ren)'s allergies with the Haa Yátx'i Hidí Supervisor before registration.

Medication will only be administered once the parent/caregiver has completed a Medication Consent Form with instructions on administering the medication.

All medication must be provided in the original container. The container must be clearly labelled with the child's name, name of medication, the dosage, the date of purchase, and instructions for storage and administration. All medication will be stored in a secured location.

All medication must be prescribed by a physician. Non-prescription medication will only be administered with documentation of instructions.

5.2 MEDICAL EMERGENCY

The child will be closely supervised and their feelings will be acknowledged. The family will be informed when they come to pick up the child. Should a serious injury occur the family shall be informed immediately of serious injury by daycare supervisor/staff.

CD-0295 STUDENT RESPONSIBILITIES

Education is a privilege; and as such, C/TFN is committed to strengthening employment, education and training partnerships between students and C/TFN, as the funding sponsor. As your funding sponsor, EAC requires full participation and recognizes the effort required to reach career development goals. Your success represents the collective achievement of C/TFN as a Nation, and as such, each education application is case specific. EAC is sensitive to student emotional, mental, physical and spiritual needs for success and fulfillment in life. It is the student's responsibility to recognize when they are struggling in any one of these areas and to seek supports as needed.

To ensure funding eligibility, all students are required to maintain a minimum of 2.00 (C level) grade point average (GPA) or levels required by the Institution.

If a student's grades fall below this standard, the student will be issued a written warning explaining that they are being put on probation and will have one additional semester to raise their grade to the minimum level required for successful program completion. If there is still no improvement after the probation semester, the student will have their existing funding terminated, they will be unable to access education/training funding for 1 year, and they may be required to repay all or a portion of their funding for the academic year in question.

All students are also required to maintain attendance levels that support their educational success. Poor attendance may also result in a semester of probation (as outlined above), inability to access funding for 1 year, termination of existing funding, and possible repayment of all or a portion of their funding.

Students are responsible for letting the Education Employment Training Officer know if there are any other changes to their studies that would effect their funding, such as a change in course load or any planned or unplanned leave needing to be taken during their regular study dates. Students who are taking a long period of medical leave from school will be required to let the EETO know as soon as possible and to submit a doctor's note to the EETO upon request.

Students are responsible for contracting the Education Employment Training Officer by email or phone before the 15th of each month they are in studies to confirm their situation has not changed. If they do not contact the Education Employment Training Officer their living allowance for the upcoming month will not be released.

Proof may look like; flight itinerary, receipt from the destination being traveled to with appropriate date.

All travel funding must be approved in advance and there is no provision for retroactive payments.

Additional travel subsidy will not be provided for the expenses of family members, pets, or livestock. For example: flights for family members, extra hotel rooms for family members, and trailers to transport pets or livestock will not be covered. Travel support outside the Yukon may not be provided in cases where a program of studies is available locally. Exceptional circumstances will be considered.

16.6 SPECIAL CONDITIONS TRAVEL

Students with no other resources may be eligible for a travel subsidy of a maximum of \$500 when dealing with terminal illness or death in the immediate family (parents, siblings, spouse, children, aunts, uncles, grandparents).

Students must notify the Education and Employment Training Officer as soon as possible and explain the circumstances.

All Special Conditions travel is subject to approval by the Director. All decisions will be subject to availability of funds.

When dealing with terminal illness or death causes the student to be absent from post-secondary studies for more than two weeks, the student will be considered to have withdrawn from studies and will be subject to funding cancellation.

These special circumstances will be taken into consideration when a student reapplies for future post-secondary financial support.

16.7 TUTORING

A student may request funding for tutoring if additional support is needed. The Education and Employment Training Officer may approve amounts as needed, up to a maximum of \$200 per term and \$500 per academic year. Payment will be made directly to a tutor approved in writing by the institution or instructor.

A tutor is on staff at C/TFN and is available to support all students upon request at no charge.

16.8 LIMITS ON FUNDING

Each student will be subject to an annual limit on post-secondary funding, based on the cost of equivalent studies at Yukon University (5 courses of 3 credits each per semester, two semesters annually).

Each student will be subject to a limit on total post-secondary funding from C/TFN, based on the equivalent of 10 years, or 120 months of support.

All funding is absolutely limited to accredited institutions.

16.9 ONLINE EDUCATION

Students taking courses online from an accredited institution will be eligible for the same types of funding as students who are studying in person (e.g. tuition, living allowance, books).

To ensure online student funding, the student must submit transcripts as requested by C/TFN and/or the Education and Employment Training Officer.

17. TERMINATION OF FUNDING

A student will have their funding terminated if they are not fulfilling their responsibilities. This will include unsatisfactory academic performance, unexcused absences from classes, misuse of financial support, or dropping out of the program of studies. In addition to this, the student may also be required to repay all or a portion of the funding provided to them in the academic year in question.

Students will be notified in writing as soon as possible of any termination or changes to their funding.

18.0 DEBT REPAYMENT

In any/all of the following scenarios, a student will be responsible to repay the C/TFN Capacity Department for all or a portion of the funding that they have received, for the program or academic year in question:

- If a student fails to successfully complete their education
- If a student fails to let the EETO know that they have experienced changes to their study dates and/or course load that effect their eligibility for funding
- If a student fails to maintain a GPA of 2.0 by the end of a probation semester
- If a student fails to achieve attendance levels that support their academic success by the end of a probation semester
- If a student is caught misusing their funding

It is the responsibility of the student to organize a debt repayment schedule with Education Employment Training Officer.

The debt repayment can be waived for exceptional circumstances, as deemed by the C/TFN Education Advisory Committee on a case by case basis.

Funding applicants who have any outstanding arrears with C/TFN (regardless of whether the arrears are related to housing, non-education financial assistance, or previous educational assistance, etc.) must sign & agree to repayment agreement terms prior to any further education funding being authorized.

Letter of Intent can be found on the C/TFN website under the Capacity Development Department page, or at the EETO Office.

An Education/Training Case Plan may be requested in addition to the Letter of Intent prior to being approved in order to clarify an applicant's educational plan and readiness to learn. The Education/Training Case Plan includes past education, training, and work experience as well as future goals, objectives, and interests. All short-term studying applicants (studies less than a month in length) should be prepared to explain how their short-term courses fit into their larger Education/Training Case Plans. Written copies of plans must be provided upon request.

As part of the decision-making process, the Education Advisory Committee & Capacity Development Department will take into consideration all previous academic achievements of the applicant where documentation is available.

If proof of completion is not received, the student may be responsible to pay back the funding received from C/TFN and may be required to sign an Agreement to Repay form as soon as possible.

Failure to provide proof of completion may also affect further ability to access C/TFN funding.

30.0 ELIGIBLE COSTS

30.7 CHILD CARE

C/TFN recognizes that many citizens wishing to participate in employment and skills training may also be parents. Therefore, childcare may be required while they are pursuing education and training. If their spouse or immediate family member cannot provide childcare, they may be eligible to receive a childcare subsidy to offset the cost of employing a babysitter or day care – this childcare funding only applies to children that are 11 years old or younger. Youth that are 12 years old and up are not covered by this funding. Students can receive \$20/day and \$10/day for each additional child.

Students can receive up to \$50/day and \$25/day for each additional child. If only a half day of childcare is required, students will receive up to \$25/day for the first child, and \$15/day for each additional child.

Students with children who are under the care of a babysitter must provide receipts for the days the child(ren) were in care to the EETO office each month.

Students with children attending daycare must provide invoices to the EETO office each month. Students can not receive more than the total amount of their monthly invoice.

The applicant must provide receipts for their accommodation to the C/TFN Capacity Department as receipts are needed for paying the purchase orders used to reserve hotel rooms.

40.0 DEVELOPMENT STUDIES/UPGRADING

Financial assistance may be provided for individuals entering development studies, or upgrading, or the equivalent to Grade 12 (e.g. cost of obtaining a GED diploma).

The amount of assistance allocated to an individual is dependent upon the funding available and the applicant's demonstrated need.

Eligible students will have their tuition and books paid directly to the institution.

Students who are upgrading on a part time basis (less than three courses) are not eligible for travel or accommodation funding.

Students who are upgrading and enrolled in three (3) or more accredited courses qualify for full-time status and may be eligible for a living allowance.

50.0 WORK GEAR EMERGENCY LOAN

C/TFN recognizes that some workplaces may require employees to have their own work gear. Applicants are encouraged to purchase their own work gear whenever possible, or request their employer provides work gear, on a repayment basis if necessary. If this is not possible, C/TFN will offer a short-term loan to applicants to purchase their equipment, with the condition of 50% repayment of the total cost with the exception of students, elders and TFA clients will not be required to repay the loan.

To be eligible for these funds, the applicant must submit to the EETO a letter from the employer that specifies:

Applicants must submit proof of completion to the Capacity Development Department before they will be eligible for reimbursement.

70.0 WAGE SUBSIDIES

Wage subsidies are available to encourage employers to hire individuals who require extra on-the-job mentorship and training in order to gain work experience and develop labor-market attachments. A wage subsidy means that C/TFN

would pay for a percentage of the applicant's wages if the employer agrees to hire the applicant for a set amount of time.

Wage subsidies are not meant to fund permanent positions but are meant to help fill individual's skill and experience gaps, therefore they can only be put in place for up to 8 months at a time. The Director and Education Employment Training Officer will make decisions on Wage Subsidy applications as there are no set deadlines for their intake.

In order for a wage subsidy to be put in place, a contract between the C/TFN Capacity Development Department and the employer in question would need to be drawn up and signed by both parties. The contract would need to outline who the applicant is, what the employment position is, what the dates of the employment will be, what the individual's wages will be, what percentage of the wage that C/TFN will cover, and how often/by what means C/TFN's payment of said wages will occur (e.g. monthly/biweekly/at end of employment, etc.). The employer will need to provide C/TFN with proof of the individual's actual time worked so that the wage subsidy can be accurately calculated and paid for.

In addition to this, the student may also be required to repay all or a portion of the funding provided to them in the academic year in question.

Students will be notified in writing as soon as possible of any termination or changes to their funding.

100.0 DEBT REPAYMENT

- If a student fails to successfully complete their education
- If a student fails to let the EETO know that they have experienced changes to their study dates and/or course load that effect their eligibility for funding
- If a student fails to maintain a GPA of 2.0 (where applicable) by the end of a probation semester
